INVESTMENT OBJECTIVE AND STRATEGIES

The investment objective of the CI Asian Opportunities Fund (the Fund) is to obtain maximum long-term capital growth. It invests primarily in equity and equity-related securities of established companies that the portfolio advisor believes have good growth potential. These companies operate in or are listed on stock exchanges in the Asia and Pacific Rim region.

The Fund may invest in any country in the region.

The portfolio advisor analyzes the global economy and the economies of Asia and the Pacific Rim, as well as the industries in those regions. Based on this analysis, it identifies the countries and then selects the companies that it believes offer potential for strong growth. The portfolio advisor uses techniques such as fundamental analysis to assess growth potential. This means evaluating the financial condition and management of a company, its industry and the overall economy. The portfolio advisor analyzes financial data, assesses the quality of management, and conducts company interviews.

For a complete discussion of the Fund's investment objective and strategies, please refer to the Fund's most recently filed simplified prospectus.

RISK

No changes affecting the overall level of risk associated with investing in the Fund were made during the period/year. The risks of the Fund remain as discussed in the Fund's most recently filed simplified prospectus or its amendments. The Manager reviews the risk rating for the Fund on an annual basis, at a minimum, based on the methodology mandated by the Canadian Securities Administrators to determine the risk level of the Fund. Any change to the risk rating made during the period/year was as a result of such review and was not a result of any change to the investment objective, strategies or management of the Fund.

RESULTS OF OPERATIONS

The Fund's net assets decreased by \$2.9 million to \$23.8 million from March 31, 2022 to March 31, 2023. The Fund had net redemptions of \$2.7 million during the year. The portfolio's performance decreased assets by \$0.2 million. Series A units returned -0.9% after fees and expenses for the one-year period ended March 31, 2023. Over the same time period, the Fund's benchmark returned -0.3%. The benchmark is the MSCI ACWI Asia Pacific Total Return Index (the Benchmark or the Index).

The performance of the Fund's other Series is substantially similar to that of Series A units, except for differences in the structure of fees and expenses. For the returns of the Fund's other Series, please refer to the "Past Performance" section.

For most of 2022, global equity markets were under pressure as interest rates continued to rise. Also, China's zero-COVID policy dampened risk appetite for most of 2023, but a surprise abandoning of the policy late in 2022 saw both China and Asia equities rebounding. The rebound carried into the early part of 2023 before equity markets stalled as investors had to rethink the timing of the end of the U.S. monetary tightening cycle as core inflation remained high.

The Fund underperformed its benchmark for the year. An underweight exposure to the materials sector detracted from the Fund's performance, as did stock selection in the consumer staples and communication services sectors. The Fund's overweight allocation to Chinese stocks heading into the 20th National Congress of the Chinese Communist Party in October 2022 detracted from performance as stocks sold off after the event. We trimmed the Fund's China weighting only to see the country abruptly end its zero-COVID policy, which led stocks to rebound. This detracted from the Fund's performance. The largest individual detractors from the Fund's performance were holdings in Insignia Financial Ltd. and China Merchants Bank Co. Ltd. Insignia Financial Ltd., after making acquisitions on financial advice businesses, appeared to have more challenges regarding the company's execution on cost savings and advisor restructuring than investors expected. China Merchants Bank Co. Ltd.'s stock declined after the company's former president came under investigation in April 2022. The industry as a whole was also negatively impacted towards year-end when wealth management products had negative yield returns and thus saw fee income slow.

The Fund's cash allocation contributed to its performance, as did stock selection within the information technology and health care sectors. Overweight allocations to the consumer staples and financials sectors contributed to the Fund's performance as investors flocked to more defensive stocks and banks continued to be profitable. Top individual contributors to the Fund's performance included holdings in Universal Vision Biotechnology Co. Ltd. and Samsonite International SA. Universal Vision Biotechnology Co. Ltd. experienced strong sales momentum in January and February 2023, up 7% and 32% year over year, respectively, driven by ongoing solid Taiwan business and traffic recovery in China. The aging population and the high-end demand for laser surgery should pave the way for the company's long-term growth. Samsonite International SA benefited from the global reopening of trade in 2022 and China's reopening from COVID-19 pandemic lockdowns late in the year.

Management Report of Fund Performance for the period/year ended March 31, 2023

We added a new position in MINISO Group Holding Ltd. to the Fund. The company retails home decor, small electronics, textiles, accessories, beauty tools, toys, cosmetics, personal care products, snacks, fragrances, stationery and gifts. It has over 3,300 stores in China and 2,100 stores in overseas markets through franchise models and self-operated models. We like the company for its asset-light business model, high store efficiency and excellent return on capital investments. We also added a position in PDD Holdings Inc. to the Fund. The company is focused on the mid- to low-end consumption segment and in the weaker macroeconomic backdrop, we believe low-end consumption should outperform in China. A holding in Dada Nexus Ltd. was eliminated from the Fund based on worries about intensified competition with Meituan Shangou.

RECENT DEVELOPMENTS

The reacceleration of the Chinese economy and signs that the U.S. economy could be heading for a recession will likely have direct impact on the performance of emerging market equities for the remainder of 2023. The reopening of the Chinese economy and the commitment by the Chinese government to push 2023 economic growth back towards 5% have increased the likelihood of a strong economic recovery in 2023.

The probability of a recession in the United States has increased as credit lending standards should continue to tighten following the recent turmoil in the country's regional banking sector.

This is not only true of the United States but will likely extend to Europe after the Swiss banking crisis. In the US, although the housing market continues to be a concern, increased consumption and infrastructure spending should sustain the initial stages of the recovery.

The Fund is tilted toward the Chinese recovery with an overweight exposure to consumer spending, with a focus on Chinese consumers, followed by exposures in India and Mexico. However, given global growth concerns and tight financial conditions outside of China, the Fund also holds several more defensive stocks. The Fund has underweight exposures to the financials and materials sectors.

Independent Review Committee

Effective October 6, 2022, John Sheedy became a member of the Independent Review Committee (IRC) of CI Funds.

Administrator

Effective August 8, 2022, RBC Investor Services Trust ceased acting as the administrator to the Fund and CIBC Mellon Global Securities Services Company started acting as the administrator to the Fund

RELATED PARTY TRANSACTIONS

Manager, Portfolio Adviser, Trustee and Registrar

CI Investments Inc. is the Manager, Portfolio Adviser, Trustee and Registrar of the Fund. CI Investments Inc. is a subsidiary of CI Financial Corp. The Manager, in consideration for management fees, provides management services required in the day-to-day operations of the Fund. The Manager bears all of the operating expenses of the Fund (other than taxes, borrowing costs and new governmental fees) in return for an administration fee.

Management fee and administration fee rates as at March 31, 2023, for the Series/Class or for each of the Series/Classes, as applicable, is/are shown below:

	Annual management fee rate (%)	Annual administration fee rate (%)
Series A	2.000	0.22
Series E	1.950	0.15
Series EF	0.950	0.15
Series F	1.000	0.22
Series I	Paid directly by investor	Paid directly by investor
Series 0	Paid directly by investor	0.15
Series P	Paid directly by investor	0.22

The Manager received \$0.4 million in management fees and \$0.04 million in administration fees for the year.

Management Fees

Approximately 31% of total management fees were used to pay for sales and trailing commissions. The remaining 69% of management fees were used to pay for investment management and other general administration.

Management Report of Fund Performance for the period/year ended March 31, 2023

Inter Fund Trading

Inter fund trading occurs when a Fund purchases or sells a security of any issuer from or to another Fund managed by the Manager. These transactions are executed through market intermediaries and under prevailing market terms and conditions. The IRC reviews such transactions during scheduled meetings. During the period/year ended March 31, 2023, the Fund executed inter fund trades.

Independent Review Committee

The Manager, in respect of the Fund, received the following standing instructions from the IRC with respect to related party transactions:

The applicable standing instructions require, amongst others, that related party transactions be conducted in accordance with the Manager's policies and procedures and applicable law and that the Manager reports related party transactions periodically to the IRC and advise the IRC of any material breach of such policies. The Manager's policies and procedures require that investment decisions in respect of related party transactions (a) are free from any influence by an entity related to the Manager and without taking into account any consideration relevant to an entity related to the Manager; (b) represent the business judgment of the Manager, uninfluenced by considerations other than the best interests of the Fund; (c) do not exceed the limitations of the applicable legislation; and (d) achieve a fair and reasonable result for the Fund.

Except as otherwise noted above under Related Party Transactions section, the Fund was not a party to any related party transactions during the period/year ended March 31, 2023. If the Fund invested in related party transactions, it relied on the IRC's standing instructions regarding related party transactions during this reporting period/year.

⁽¹⁾ This information is derived from the Fund's audited annual financial statements.

⁽²⁾ Management expense ratio is calculated based on expenses charged to the Fund (excluding commissions and other portfolio transaction costs) and is expressed as an annualized percentage of daily average net assets for the period/year, including the Fund's proportionate share of any underlying fund(s) expenses, if applicable. The Effective HST tax rate is calculated using the attribution percentage for each province based on unitholder residency and can be different from 13%.

⁽³⁾ The trading expense ratio represents total commissions and other portfolio transaction costs expressed as an annualized percentage of daily average net assets during the period/year, including the Fund's proportionate share of such expenses of any underlying fund(s), if applicable.

⁽⁴⁾ The Fund's portfolio turnover rate indicates how actively the Fund's portfolio advisor manages its portfolio investments. A portfolio turnover rate of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the fiscal period/year. The higher a Fund's portfolio turnover rate in a period/year, the greater the trading costs payable by the Fund in the period/year, and the greater the chance of an investor receiving taxable capital gains in the period/year. There is not necessarily a relationship between a higher turnover rate and the performance of a Fund. Portfolio turnover rate is calculated by dividing the lesser of the cost of purchases and the proceeds of sales of portfolio securities for the period/year, and excluding cash and short-term investments maturing in less than one year, and before assets acquired from a merger, if applicable, by the average of the monthly fair value of investments during the period/year.

⁽⁵⁾ This information is provided for the period(s)/year(s) ended March 31.

Management Report of Fund Performance for the period/year ended March 31, 2023

PAST PERFORMANCE

This section describes how the Fund has performed in the past. Remember, past returns do not indicate how the Fund will perform in the future. The information shown assumes that distributions made by the Fund in the period(s)/year(s) shown were reinvested in additional units of the Fund or relevant Series/Class of the Fund, as applicable. In addition, the information does not take into account sales, redemption, distribution or other optional charges that would have reduced returns or performance.

Year-by-Year Returns

The following chart/charts shows/show the Fund's annual performance for each of the period(s)/year(s) shown and illustrates/illustrate how the Fund's performance has changed from period/year to period/year. In percentage terms, the chart/charts shows/show how much an investment made on the first day of each financial period/year would have grown or decreased by the last day of each financial period/year, except where noted.

- 1 $\,$ 2016 return is for the period from August 04, 2015 to March 31, 2016.
- $2\,$ 2014 return is for the period from July 30, 2013 to March 31, 2014.
- 3 2018 return is for the period from May 01, 2017 to March 31, 2018.

Management Report of Fund Performance for the period/year ended March 31, 2023

Annual Compound Returns

The following table shows the Fund's annual compound returns for each year indicated, compared to the MSCI ACWI Asia Pacific Total Return Index.

The MSCI ACWI Asia Pacific Index is a free float-adjusted market capitalization weighted index that is designed to measure the equity market performance of the developed and emerging markets in the Asia Pacific region. The Index consists of the 5 developed and 8 emerging market countries.

A discussion of the performance of the Fund as compared to the benchmark is found in the Results of Operations section of this report.

A NOTE ON FORWARD-LOOKING STATEMENTS

This report may contain forward-looking statements about the Fund, its future performance, strategies or prospects, and possible future Fund action. The words "may," "could," "should," "would," "suspect," "outlook," "believe," "plan," "anticipate," "estimate," "expect," "intend," "forecast," "objective," and similar expressions are intended to identify forward-looking statements.

Forward-looking statements are not guarantees of future performance. Forward-looking statements involve inherent risks and uncertainties, both about the Fund and general economic factors, so it is possible that predictions, forecasts, projections and other forward-looking statements will not be achieved. We caution you not to place undue reliance on these statements as a number of important factors could cause actual events or results to differ materially from those expressed or implied in any forward-looking statement made by the Fund. These factors include, but are not limited to, general economic, political and market factors in Canada, the United States and internationally, interest and foreign exchanges rates, global equity and capital markets, business competition, technological changes, changes in laws and regulations, judicial or regulatory judgments, legal proceedings and catastrophic events.

The above list of important factors that may affect future results is not exhaustive. Before making any investment decisions, we encourage you to consider these and other factors carefully. All opinions contained in forward-looking statements are subject to change without notice and are provided in good faith but without legal responsibility.
