Management Report of Fund Performance for the period/year ended December 31, 2023

This annual management report of fund performance contains financial highlights but does not contain the complete annual financial statements of the investment fund. You can get a copy of the annual financial statements at your request, and at no cost, by calling 1-800-792-9355, by writing to us at CI Investments Inc., 15 York Street, Second Floor, Toronto, ON, M5J 0A3 or by visiting our website at www.ci.com or SEDAR+ at www.sedarplus.ca.

Securityholders may also contact us using one of these methods to request a copy of the investment fund's proxy voting policies and procedures, proxy voting disclosure record, or quarterly portfolio disclosure.

INVESTMENT OBJECTIVE AND STRATEGIES

The investment objectives of the CI Canadian Convertible Bond Fund (the Fund) are to provide unitholders with quarterly distributions and the opportunity for capital appreciation through investment predominantly in Canadian debentures that are convertible into equity of Canadian issuers, investments in convertible debentures of non- Canadian issuers, as well as fixed income instruments and equities.

For a complete discussion of the Fund's investment objective and strategies, please refer to the Fund's most recently filed simplified prospectus.

RISK

No changes affecting the overall level of risk associated with investing in the Fund were made during the period/year. The risks of the Fund remain as discussed in the Fund's most recently filed simplified prospectus or its amendments. The Manager reviews the risk rating for the Fund on an annual basis, at a minimum, based on the methodology mandated by the Canadian Securities Administrators to determine the risk level of the Fund. Any change to the risk rating made during the period/year was as a result of such review and was not a result of any change to the investment objective, strategies or management of the Fund.

RESULTS OF OPERATIONS

The Fund's net assets decreased by \$2.0 million to \$32.9 million from December 31, 2022 to December 31, 2023. The Fund had net redemptions of \$0.1 million for the year. The portfolio's performance increased assets by \$0.3 million. The Fund paid distributions totaling \$2.2 million. Series A securities returned 0.6% after fees and expenses for the one-year period ended December 31, 2023. Over the same time period, the Fund's benchmark returned 10.4%. The benchmark is a combination of the ICE BofA Canada High Yield Total Return Index - 50% and the S&P/TSX Composite Total Return Index - 50% (the Benchmark or the Index).

Please refer to the "Past Performance" section which outlines the performance of the Fund's other Series.

The first half of the year was characterized by continued monetary tightening by central banks, large fluctuations in bond yields and generally rising equity markets. The U.S. Federal Reserve Board (Fed) raised interest rates into July 2023 before pausing for the rest of the year with the target rate at 5.50%. The Bank of Canada (BoC) paused its interest rate increases for a few months but resumed them in June and July. The BoC then held its policy interest rate steady at 5.00% for the remainder of 2023. Inflation was the key driver of interest rates, with higher readings than expected for most of the first half of the year and steadily declining levels in the second half. North American economies remained resilient, raising expectations of an economic soft landing and propelling equity markets higher.

The Fund underperformed its benchmark for the year. Exposure to select smaller-capitalization real estate convertible bonds detracted from the Fund's performance, as did a couple of holdings that declined along with their underlying equity prices. The largest individual detractors from the Fund's performance were holdings in Slate Office REIT 5.5% Dec. 31, 2026, BSR REIT 5.0% Sep. 30, 2025 and Northwest Healthcare Properties REIT 7.75% Apr. 30, 2028 bonds. Slate Office REIT convertible bonds declined on perceived increased credit risk as the company faced a tough office leasing environment and a stressed balance sheet. The company cut its distribution, which should help with debt reduction. BSR REIT's equity price dropped as the supply of new apartments increased in some of the company's markets. Northwest Healthcare Properties REIT was affected by perceived credit risk as it restructured a convertible bond that was payable at the end of 2023 rather than pay it back in cash.

The Fund's performance benefited from holdings where the underlying equity price rose, contributing to a rise in the convertible bond price as well. The Fund also had a few holdings with improving credit profiles, which caused the credit spread (the yield differential between securities of similar maturity but different credit quality) to narrow and the convertible bonds to rise in value. A holding in AG Growth International Inc. 5.0% Jun. 30, 2027 bonds contributed to the Fund's performance as the company's stock rose in response to strong financial results and a positive backdrop for the agricultural sector. A holding of North American Construction Group Ltd. 5.5% Jun. 30, 2028 bonds was another contributor to the Fund's performance. The company's stock climbed after reporting strong second-quarter 2023 results and the announcement of acquisition of an Australian company. A position in Well Health Technologies Corp. 5.5% Dec. 31, 2026 bonds also contributed to the Fund's performance after the company posted strong 2023 results on growing earnings and continued acquisitions.

CI Canadian Convertible Bond Fund

Management Report of Fund Performance for the period/year ended December 31, 2023

We added new positions in StorageVault Canada Inc. 5.0% Mar. 31, 2028 and Surge Energy Inc. 8.5% Dec. 31, 2023 bonds to the Fund. Existing holdings in Morguard North American Residential REIT 6.0% Mar. 31, 2028 and Northwest Healthcare Properties REIT 10.0% Mar. 31, 2025 bonds were increased. We eliminated the Fund's holdings in Aecon Group Inc. 5.0% Dec. 31, 2023 and Colliers International Group Inc. 4.0% Jun. 1, 2025 bonds, and we trimmed positions in Slate Office REIT 9.0% Feb. 28, 2026, Alaris Equity Partners Income Trust 5.5% Jun. 30, 2024 and StorageVault Canada Inc. 5.5% Sep. 30, 2026 bonds.

Please refer to the "Past Performance" section which outlines the performance of the Fund's other Series.

Despite the sharp rise in interest rates, North American economies remained resilient, with close to full employment and decent growth, particularly in the United States. Inflation has come down steadily, and while still above the target rate of 2% set by central banks, including the Fed, it is trending in the right direction. This could allow central banks to start lowering interest rates in the first half of 2024. In this scenario, it does seem possible for the economy to have an economic soft landing and avoid recession. The risk is that economic growth could still fall sharply as all of the interest rate hikes could still have a lagged effect, but that is not what we anticipate.

Individual company credit should continue to play a crucial role in the Fund's performance. We seek companies with strong balance sheets and that can withstand economic uncertainty.

RELATED PARTY TRANSACTIONS

Manager, Portfolio Adviser and Trustee

CI Investments Inc. is the Manager, Portfolio Adviser and Trustee of the Fund. CI Investments Inc. is a subsidiary of CI Financial Corp. The Manager, in consideration of management fees, provided management services required in the day-to-day operations of the Fund. The Manager bears all of the operating expenses of the Fund (other than taxes, borrowing costs and new governmental fees) in return for an administration fee.

Management fee and administration fee rates as at December 31, 2023, for the Series/Class or for each of the Series/Classes, as applicable, is/are shown below:

	Annual management fee rate (%):	Annual administration fee rate (%):
Series A	1.900	0.17
Series F	0.750	0.17

The Manager received \$0.5 million in management fees and \$0.1 million in administration fees for the year.

Management Fees

Approximately 26% of total management fees were used to pay for sales and trailing commissions. The remaining 74% of management fees were used to pay for investment management and other general administration.

Related Fund Trading

Related fund trading occurs when a Fund purchases or sells units/shares of another Fund managed by the Manager. During the period/year ended December 31, 2023, the Fund engaged in related fund trading or held position(s) in related fund(s) at the end of the period/year.

Independent Review Committee

The Manager, in respect of the Fund, received the following standing instructions from the Independent Review Committee (IRC) with respect to related party transactions:

The applicable standing instructions require, amongst others, that related party transactions be conducted in accordance with the Manager's policies and procedures and applicable law and that the Manager reports related party transactions periodically to the IRC and advise the IRC of any material breach of such policies. The Manager's policies and procedures require that investment decisions in respect of related party transactions (a) are free from any influence by an entity related to the Manager and without taking into account any consideration relevant to an entity related to the Manager; (b) represent the business judgment of the Manager, uninfluenced by considerations other than the best interests of the Fund; (c) do not exceed the limitations of the applicable legislation; and (d) achieve a fair and reasonable result for the Fund.

Except as otherwise noted above under Related Party Transactions section, the Fund was not a party to any related party transactions during the period/year ended December 31, 2023. If the Fund invested in related party transactions, it relied on the IRC's standing instructions regarding related party transactions during this reporting period/year.

(1) This information is derived from the Fund's audited annual financial statements.

(2) Management expense ratio is calculated based on expenses charged to the Fund (excluding commissions and other portfolio transaction costs) and is expressed as an annualized percentage of daily average net assets for the period/year, including the Fund's proportionate share of any underlying fund(s) expenses, if applicable. The Effective HST tax rate is calculated using the attribution percentage for each province based on unitholder residency and can be different from 13%.

(3) The trading expense ratio represents total commissions and other portfolio transaction costs expressed as an annualized percentage of daily average net assets during the period/year, including the Fund's proportionate share of such expenses of any underlying fund(s), if applicable.

(4) The Fund's portfolio turnover rate indicates how actively the Fund's portfolio advisor manages its portfolio investments. A portfolio turnover rate of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the fiscal period/year. The higher a Fund's portfolio turnover rate in a period/year, the greater the trading costs payable by the Fund in the period/year, and the greater the chance of an investor receiving taxable capital gains in the period/year. There is not necessarily a relationship between a higher turnover rate and the performance of a Fund. Portfolio turnover rate is calculated by dividing the lesser of the cost of purchases and the proceeds of sales of portfolio securities for the period/year, and excluding cash and short-term investments maturing in less than one year, and before assets acquired from a merger, if applicable, by the average of the monthly fair value of investments during the period/year.

(5) This information is provided for the period(s)/year(s) ended December 31.

PAST PERFORMANCE

This section describes how the Fund has performed in the past. Remember, past returns do not indicate how the Fund will perform in the future. The information shown assumes that distributions made by the Fund in the period(s)/year(s) shown were reinvested in additional units of the Fund or relevant Series/Class of the Fund, as applicable. In addition, the information does not take into account sales, redemption, distribution or other optional charges that would have reduced returns or performance.

Year-by-Year Returns

The following chart/charts shows/show the Fund's annual performance for each of the period(s)/year(s) shown and illustrates/illustrate how the Fund's performance has changed from period/year to period/year. In percentage terms, the chart/charts shows/show how much an investment made on the first day of each financial period/year would have grown or decreased by the last day of each financial period/year, except where noted.
