## INVESTMENT OBJECTIVE AND STRATEGIES

The investment objective of Signature Global REIT Fund (the Fund) is to provide regular current income by investing primarily in real estate investment trusts (REITs) and equity securities of corporations participating in the residential and commercial real estate sector. These include corporations that own, manage, develop, finance and otherwise participate in the residential and commercial real estate industry. While the Fund will invest primarily in REITs and common equities, it may also invest in convertible debentures and trust units, as well as in fixed-income securities issued by real estate related corporations and government or other sovereign credits. The Fund may also invest in structured products, either public or private, that hold real estate related securities, including mortgages, mezzanine debt or properties.

The Fund has the ability to invest up to all of its assets in foreign securities.

For a complete discussion of the Fund's investment objective and strategies, please refer to the Fund's most recently filed simplified prospectus.

## RISK

No changes affecting the overall level of risk associated with investing in the Fund were made during the year. The risks of the Fund remain as discussed in the Fund's most recently filed simplified prospectus or its amendments. The Manager reviews the risk rating for the Fund on an annual basis, at a minimum, based on the methodology mandated by the Canadian Securities Administrators to determine the risk level of the Fund. Any change to the risk rating made during the year was as a result of such review and was not a result of any change to the investment objective, strategies or management of the Fund.

## RESULTS OF OPERATIONS

The net asset value of the Fund decreased by \$67.5 million to \$718.5 million from March 31, 2019 to March 31, 2020. The Fund had net sales of \$47.0 million during the year. The portfolio's performance decreased assets by \$65.2 million. The Fund paid distributions totalling \$49.3 million. Series A units returned -8.1% after fees and expenses for the one-year period ended March 31, 2020. Over the same time period, the Fund's benchmark returned -19.1%. The benchmark is the FTSE EPRA/NAREIT Developed Total Return Index (the Benchmark).

The performance of the Fund's other Series is substantially similar to that of Series A units, except for differences in the structure of fees and expenses. For the returns of the Fund's other Series, please refer to the "Past Performance" section.

The global real estate investment trust (REIT) market was heavily impacted by the COVID-19 pandemic in early 2020. The period from April 2019 through the third week of February 2020 was, in hindsight, generally unremarkable, with modest economic growth and declining bond yields. In this environment, the REIT sector performed quite well as

people were healthy, and goods, services and people could flow freely across borders. Property fundamentals were strong and supported by a lower yield environment.

As the outbreak of the COVID-19 disease quickly evolved from a concerning virus to an international public health emergency and then to a pandemic, as defined by the World Health Organization, this all changed. In the first quarter of 2020, REIT market prices saw their full life cycle play out in fast-forward, going from pricing in healthy fundamentals to potentially slowing fundamentals in a slow-growth world, and then to potentially deteriorating fundamentals in a recession to concerns of a full-blown liquidity crisis. REITs, like most sectors, saw a material sell-off through the uncertainty and fear the COVID-19 pandemic had brought on. Still, we remain focused on investing in companies with strong balance sheets and in sectors with fundamentals that should remain relatively resilient through a market downturn. This is even more important today as the world deals with the impacts of the COVID-19 crisis on the global economy.

For the year ended March 31, 2020, the Fund outperformed its benchmark. The Fund's negative returns were entirely due to the sell-off that began in late February 2020 and lasted until year-end. The longer-term economic malaise the COVID-19 pandemic is expected to cause has led to investor uncertainty over REIT cash flows. The decline in expectations for global economic growth along with actions taken by central banks globally has caused government bond yields to decline materially, which should act as a partial offset to declining revenue projections for REITs. Every REIT subsector will be impacted by the COVID-19 pandemic, but to varying degrees. Hotels and malls may continue to see continued weakness in fundamentals that persist beyond the period of the COVID-19 pandemic. Cell towers and data centres should see a continuation of healthy fundamentals, while other sectors, such as warehouses and residential rentals, should see a resumption of strong fundamentals following a short-term impact on rents from the recent lockdowns.

Holdings that added the most to the Fund performance during the year included Equinix, Inc.; Americold Realty Trust; and Prologis Inc. Holdings that detracted from Fund performance included Tricon Capital Group Inc., Chartwell Retirement Residences and AvalonBay Communities Inc.

Going into the reporting year, the Fund was positioned in subsectors supported by strong fundamentals and whose businesses should hold up through a market downturn, even if their share prices may experience volatility in the near term. This includes global warehouses and certain residential rental markets. The Fund has no exposure to hotel or mall companies. We increased the Fund's weighting in specialty real estate companies such as data centres and cell towers through companies that include Switch Inc. and Crown Castle International Corp. We also diversified the Fund's geographical exposure through increased positions in Asian real estate companies such as ESR Cayman Ltd. and Parkway Life Real Estate Investment Trust.

## RECENT DEVELOPMENTS

The impacts of the COVID-19 pandemic remain uncertain for all sectors, including global real estate. There are some subsectors within real estate that will have material negative impacts over the short and long term, and we seek to avoid investing Fund assets in these areas. Less traditional subsectors such as data centres, cell towers, cold-storage warehouses and life-science campuses should continue to exhibit sound fundamentals, and we have a bias towards companies in these areas. In the near term, the impacts of the COVID-19 pandemic on fundamentals are more difficult to assess, so volatility may persist within REIT unit prices. However, in an era of low growth and low interest rates, we believe REITs are attractive for a long-term investor.

On July 25, 2019, the Manager announced that effective March 31, 2020, Ernst & Young LLP replaced Deloitte LLP as the auditor to the Fund.

Effective August 15, 2019 and April 3, 2020, respectively, John Reucassel and Stuart Hensman resigned as members of the Independent Review Committee (IRC) of CI Funds and effective September 19, 2019 and April 3, 2020, respectively, James McPhedran and Donna Toth were appointed as members of the IRC.

## Merger

On September 23, 2019, CI Investments Inc. announced Funds' mergers. Effective as of close of business on November 22, 2019, Signature Real Estate Pool merged into Signature Global REIT Fund.

Effective November 22, 2019, the Fund was renamed Signature Global REIT Fund.

(1) This information is derived from the Fund's audited annual financial statements.

(2) Management expense ratio is calculated based on expenses charged to the Fund (excluding commissions and other portfolio transaction costs) and is expressed as an annualized percentage of daily average net assets for the year, including the Fund's proportionate share of any underlying fund(s) expenses, if applicable. The Effective HST tax rate is calculated using the attribution percentage for each province based on unitholder residency and can be different from 13%.

(3) The trading expense ratio represents total commissions and other portfolio transaction costs expressed as an annualized percentage of daily average net assets during the year, including the Fund's proportionate share of such expenses of any underlying fund(s), if applicable.

(4) The Fund's portfolio turnover rate indicates how actively the Fund's portfolio advisor manages its portfolio investments. A portfolio turnover rate of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the fiscal year. The higher a Fund's portfolio turnover rate in a year, the greater the trading costs payable by the Fund in the year, and the greater the chance of an investor receiving taxable capital gains in the year. There is not necessarily a relationship between a higher turnover rate and the performance of a Fund. Portfolio turnover rate is calculated by dividing the lesser of the cost of purchases and the proceeds of sales of portfolio securities for the year, and excluding cash and short-term investments maturing in less than one year, and before assets acquired from a merger, if applicable, by the average of the monthly fair value of investments during the year.
