INVESTMENT OBJECTIVE AND STRATEGIES

The objective of the Harbour Voyageur Corporate Class (the Fund) is to obtain maximum long-term capital growth. It invests primarily in equity and equity-related securities of Canadian companies that the portfolio advisor believes have good potential for future growth.

The portfolio advisor uses techniques such as fundamental analysis to assess the growth potential of a company. This means evaluating the financial condition and management of a company, its industry and the overall economy.

The portfolio advisor analyzes financial data, assesses the quality of management, and conducts company interviews. Investments in foreign securities will generally be no more than 49% of the Fund's assets.

RISK

No changes affecting the overall level of risk associated with investing in the Fund were made during the year. The risks of the Fund remain as discussed in the Fund's most recently filed simplified prospectus or its amendments. The Manager reviews the risk rating for the Fund on an annual basis, at a minimum, based on the methodology mandated by the Canadian Securities Administrators to determine the risk level of the Fund. Any change to the risk rating made during the year was as a result of such review and was not a result of any change to the investment objective, strategies or management of the Fund.

RESULTS OF OPERATIONS

The net asset value of the Fund decreased by \$4.2 million to \$65.9 million from March 31, 2018 to March 31, 2019. The Fund had net redemptions of \$5.1 million during the year. The portfolio's performance increased assets by \$2.9 million. The Fund paid distributions totalling \$2.0 million. Class A shares returned 4.4% after fees and expenses for the one-year period ended March 31, 2019. Over the same time period, the Fund's benchmark returned 8.1%. The benchmark is the S&P/TSX Composite Total Return Index.

The performance of the Fund's other classes is substantially similar to that of Class A shares, except for differences in the structure of fees and expenses. For the returns of the Fund's other classes, please refer to the "Past Performance" section.

As of March 31, 2019, the Fund had 95.0% of its assets invested in common stocks (Canadian common 100.0%, foreign common 0.0%) and 5.0% in cash and equivalents. At the beginning of the period, 95.04% of the Fund was invested in common stocks (Canadian common 100.00%, foreign common 0.0%) and 5.0% in cash and equivalents. The geographic weighting in the Fund is an outcome of the Fund's bottom-up individual company selection process and not a result of top-down country allocations.

Industry sectors that added to the performance of the Fund includes communication services, and consumer staples. Industry sectors that detracted from Fund performance include materials and utilities.

Individual stocks that had positive contribution to performance during the period include Canadian Pacific Railway Ltd., Roger's Communications Inc. and Brookfield Asset Management. Individual stocks that detracted from performance include Fortuna Silver Mines Inc. and Maxar Technologies Inc.

During the year, the Fund added to a number of existing holdings including Pembina Pipeline Corp., Suncor Energy Inc. and Alimentation Couche-Tard Inc. The Fund also trimmed holdings in Finning International Inc. and Sun Life Financial Inc.

During the year, a number of new positions were added including Dollarama Inc. Enbridge Inc., and Intact Financial Corp. There were a number of positions eliminated from the Fund including Maxar Technologies Inc., Bank of Montreal, and Shawcor Ltd.

The number of companies held in the portfolio at the end of the period was 45, which compares to 47 companies twelve months ago.

Overall, the Fund underperformed its benchmark during the year.

RECENT DEVELOPMENTS

We expect our holdings to continue to perform well over the long term, given that fundamentals remain positive and valuations continue to look attractive.

Net fund flows were negligible and therefore had no impact on the Fund performance.

New Accounting Standard – IFRS 9

Effective April 1, 2018, the Fund retrospectively without restatement adopted IFRS 9, *Financial Instruments* (IFRS 9). The new standard requires financial assets to be either carried at amortized cost or at fair value with changes in fair value recognized in profit and loss (FVTPL) or in other comprehensive income (FVOCI) based on the Fund's business model for managing financial assets and the contractual cash flow characteristics of the financial assets. Upon transition to IFRS 9, the Fund's financial assets and financial liabilities previously designated as FVTPL or classified as held for trading under IAS 39, *Financial Instruments: Recognition and Measurement* (IAS 39) continue to be classified as FVTPL under IFRS 9. There were no changes in the measurement attributes for any of the Fund's financial assets and financial liabilities upon transition to IFRS 9.

Effective September 20, 2018, Tom Eisenhauer became a member of the Independent Review Committee (IRC) and effective October 15, 2018, Mary Robertson resigned as a member of the IRC.

Inter-Fund Trading

Inter-fund trading occurs when a Fund purchases or sells a security of any issuer from or to another Fund managed by the Manager. The Fund received standing instructions from the Fund's Independent Review Committee with respect to the following related party transactions:

- purchases or sales of securities of an issuer from or to another investment fund managed by the Manager.

The applicable standing instructions require that related party transactions be conducted in accordance with the Manager's policies and procedures and that the Manager advise the IRC of any material breach of a condition of the standing instructions. The standing instructions require, among other things, that investment decisions in respect of related party transactions (a) are free from any influence by an entity related to the Manager and without taking into account any consideration relevant to an entity related to the Manager; (b) represent the business judgment of the Manager uninfluenced by considerations other than the best interests of the Fund; (c) are made in compliance with the Manager's policies and procedures; and (d) achieve a fair and reasonable result for the Fund. Transactions made by the Manager under the standing instructions are subsequently reviewed by the IRC on a quarterly basis to monitor compliance.

(1) This information is derived from the Fund's audited annual financial statements.

(2) Management expense ratio is calculated based on expenses charged to the Fund (excluding commissions and other portfolio transaction costs) and is expressed as an annualized percentage of daily average net assets for the year, including the Fund's proportionate share of any underlying fund(s) expenses, if applicable. The Effective HST tax rate is calculated using the attribution percentage for each province based on shareholder residency and can be different from 13%.

(3) The trading expense ratio represents total commissions and other portfolio transaction costs expressed as an annualized percentage of daily average net assets during the year, including the Fund's proportionate share of such expenses of any underlying fund(s), if applicable.

(4) The Fund's portfolio turnover rate indicates how actively the Fund's portfolio advisor manages its portfolio investments. A portfolio turnover rate of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the fiscal year. The higher a Fund's portfolio turnover rate in a year, the greater the trading costs payable by the Fund in the year, and the greater the chance of an investor receiving taxable capital gains in the year. There is not necessarily a relationship between a higher turnover rate and the performance of a Fund. Portfolio turnover rate is calculated by dividing the lesser of the cost of purchases and the proceeds of sales of portfolio securities for the year, and excluding cash and short-term investments maturing in less than one year, and before assets acquired from a merger, if applicable, by the average of the monthly fair value of investments during the year.

(5) This information is provided for the years ended March 31.

PAST PERFORMANCE

This section describes how the Fund has performed in the past. Remember, past returns do not indicate how the Fund will perform in the future.
