**How risky is it?**

The value of the fund can go down as well as up. You could lose money.

One way to gauge risk is to look at how much a fund's returns change over time. This is called "Volatility".

In general, funds with higher volatility will have returns that change more over time. They typically have lower returns and may have a lower chance of losing money.

**Risk rating**

CI Investments Inc. has rated the volatility of this fund as low to medium.

Generally, the rating is based on how much the fund's returns have changed from year to year. It doesn't tell you how volatile the fund will be in the future. The rating can change over time. A fund with a low risk rating can still lose money.

**No guarantees**

Like most mutual funds, this fund doesn't have any guarantees. You may not get back the amount of money you invest.

A word about tax
In general, you'll have to pay income tax on any money you make on a fund. How much you pay depends on the tax laws of where you live and whether you hold the fund in a registered plan, such as a Registered Retirement Savings Plan or a Tax-Free Savings Account.

Keep in mind that if you hold your fund in a non-registered account, fund distributions are included in your taxable income, whether you get them in cash or have them reinvested.

The fees and expenses — including any commissions — can vary among series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

1. Sales charges
There are no sales charges applicable to your series of securities.

2. Fund expenses
You don't pay these expenses directly. They affect you because they reduce the fund series' returns.

The fund series' expenses are made up of performance fee, trading costs and Certain Fund Costs. Because this fund series is new, its Certain Fund Costs and trading costs are not available.

The fund may pay CI a performance fee at the end of each year equal to 10% of the amount by which the net asset value per unit at the end of such year (before giving effect to any distributions by the fund since the High Water Mark (as defined in the prospectus) was determined, and adjusted to exclude the accrual of the performance fee during the year) exceeds the High Water Mark multiplied by one plus the Hurdle Rate (as defined in the prospectus), multiplied by the number of units of that series outstanding at the end of such year. If any units of a Fund are redeemed prior to the end of a year, a performance fee may be payable on the redemption date in respect of each such units, as if the redemption date were the end of the year. Performance fees will be calculated and accrued for each series on a daily basis during each year.
