How risky is it?
The value of the fund can go down as well as up. You could lose money.
One way to gauge risk is to look at how much a fund’s returns change over time. This is called “volatility”.
In general, funds with higher volatility will have returns that change more over time. They typically have a greater chance of losing money and may have a greater chance of higher returns. Funds with lower volatility tend to have returns that change less over time. They typically have lower returns and may have a lower chance of losing money.

Risk rating
CI Investments Inc. has rated the volatility of this fund as medium.
Generally, the rating is based on how much the fund’s returns have changed from year to year. It doesn’t tell you how volatile the fund will be in the future. The rating can change over time. A fund with a low risk rating can still lose money.

For more information about the risk rating and specific risks that can affect the fund’s returns, see the “What is a Mutual Fund and What are the Risks of Investing in a Mutual Fund?” section of the fund’s simplified prospectus.

No guarantees
Like most mutual funds, this fund doesn’t have any guarantees. You may not get back the amount of money you invest.

How has the fund performed?
This section tells you how Class F securities of the fund have performed over the past 3 calendar years. Returns are after expenses have been deducted. These expenses reduce the fund's returns.

Year-by-year returns
This chart shows how Class F securities of the fund performed in each of the past 3 calendar years. This fund class dropped in value in 1 of the last 3 calendar years. The range of returns and change from year to year can help you assess how risky the fund has been in the past. It does not tell you how the fund will perform in the future.

Best and worst 3-month returns
This table shows the best and worst returns for Class F securities of the fund in a 3-month period over the past 3 calendar years. The best and worst 3-month returns could be higher or lower in the future. Consider how much of a loss you could afford to take in a short period of time.

Average return
The annual compounded return of Class F securities of the fund was 9.7% since inception. If you had invested $1,000 in the fund on the inception date, your investment would now be worth $1,254.

Who is this fund for?
This fund may be suitable for you if you:
- are seeking growth of capital associated with Canadian equity securities
- are investing for the medium and/or long term
- can tolerate medium risk

A word about tax
In general, you'll have to pay income tax on any money you make on a fund. How much you pay depends on the tax laws of where you live and whether you hold the fund in a registered plan, such as a Registered Retirement Savings Plan or a Tax-Free Savings Account.

Keep in mind that if you hold your fund in a non-registered account, fund distributions are included in your taxable income, whether you get them in cash or have them reinvested.

**How much does it cost?**
The following tables show the fees and expenses you could pay to buy, own and sell Class F securities of the fund. The fees and expenses — including any commissions — can vary among classes of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

**1. Sales charges**
There are no sales charges applicable to your class of securities.

**2. Fund expenses**
You don’t pay these expenses directly. They affect you because they reduce the fund class’ returns.

As at March 31, 2019, the total fund class’ expenses were 1.47%. This equals $14.70 for every $1,000 invested.

</tr>
<tr>
<td>Investment advisory fee</td>
<td>You may be charged an investment advisory fee, the amount of which is negotiated between you and your representative (acting on behalf of the representative’s firm) and collected by your representative’s firm. Class F securities are available only to investors who participate in fee-based programs through their representatives’ firms. In certain cases, we will collect the investment advisory fee on behalf of your representative’s firm (by redeeming (without charges) a sufficient number of securities from your account on a quarterly basis). In these cases, the investment advisory fee must not exceed 1.50% annually of the net asset value of Class F securities of the fund in your account.</td>

**What if I change my mind?**
Under securities law in some provinces and territories, you have the right to:

- withdraw from an agreement to buy mutual funds securities within two business days after you receive a simplified prospectus or Fund Facts document, or
- cancel your purchase within 48 hours after you receive confirmation of the purchase.

In some provinces and territories, you also have the right to cancel a purchase, or in some jurisdictions, claim damages, if the simplified prospectus, annual information form, Fund Facts document or financial statements contain a misrepresentation. You must act within the limit set by the securities law in your province or territory.

For more information, see the securities law of your province or territory or ask a lawyer.
