What does the fund invest in?

Sentry Real Income 1951-55 Class aims to provide inflation-adjusted income and capital appreciation by primarily investing directly in nominal and real return fixed-income and/or equity securities or indirectly through an investment in securities of underlying pools that have exposure to such securities. From the pool's inception date through until its horizon date of December 2045, an increasing proportion of the pool's assets will be invested directly or indirectly in nominal and real return fixed-income securities. The pool is intended for those investors born between the years of 1951 and 1955.

Within six (6) months after the pool's horizon date, it is expected that the pool will, with the prior approval of the independent review committee and on written notice to investors, be combined with Sentry Real Income 1941-45 Class (to be renamed Sentry Real Income Class). Sentry Real Income Class will invest, directly or indirectly, in a portfolio comprised of nominal and real return fixed-income securities.

The charts below give you a snapshot of the pool's investments on April 30, 2018. The pool's investments will change.

How risky is it?

The value of the pool can go down as well as up. You could lose money.

One way to gauge risk is to look at how much a pool's returns change over time. This is called "volatility".

In general, pools with higher volatility will have returns that change more over time. They typically have a greater chance of losing money and may have a greater chance of higher returns. Pools with lower volatility tend to have returns that change less over time. They typically have lower returns and may have a lower chance of losing money.

Risk Rating

CI Investments Inc. has rated the volatility of this pool as **low to medium**.

This rating is based on how much the pool's returns have changed from year to year. It doesn't tell you how volatile the pool will be in the future. The rating can change over time. A pool with a low risk rating can still lose money.

For more information about the risk rating and specific risks that can affect the pool's returns, see the "What are the risks of investing in this Fund?" section of the pool's simplified prospectus.

No guarantees

Like most mutual funds, this pool doesn't have any guarantees. You may not get back the money you invest.

Sentry Real Income 1951-55 Class - Series A

How has the fund performed?

This section tells you how Series A securities of the pool have performed over the past year. Returns are after expenses have been deducted. These expenses reduce the pool's returns.

Year-by-year returns

This chart shows how Series A securities of the pool performed in the past year. The pool did not drop in value in the past year. The range of returns and change from year to year can help you assess how risky the pool has been in the past. It does not tell you how the pool will perform in the future.

Best and worst 3-month returns

This table shows the best and worst returns for Series A securities of the pool in a 3-month period over the past year. The best and worst 3-month returns could be higher or lower in the future. Consider how much of a loss you could afford to take in a short period of time.

| | Return | 3 months ending | If you invested \$1,000 at the beginning of the period |
|---------------------|--------|-----------------|--|
| Best return | 5.7% | April 30, 2017 | Your investment would rise to \$1,057 |
| Worst return | -4.1% | July 31, 2017 | Your investment would drop to \$959 |

Average return

A person who invested \$1,000 in Series A securities of the pool on the series' start date would have had \$1,053 as of April 30, 2018. This works out to an annual compound return of 2.9%.

Who is this fund for?

Investors who:

- are willing to accept a low to medium degree of risk
- are born between the years of 1951 and 1955 and are seeking inflation-adjusted income (or seeking inflation-adjusted income similar to that of an investor born between the years of 1951 and 1955) and seeking the potential for capital appreciation
- are planning to hold their investment for the long term.

A word about tax

In general, you'll have to pay income tax on any money you make on a pool. How much you pay depends on the tax laws where you live and whether or not you hold the pool in a registered plan such as a Registered Retirement Savings Plan, or a Tax-Free Savings Account. Keep in mind that if you hold your pool in a non-registered account, pool distributions are included in your taxable income, whether you get them in cash or have them reinvested.

Sentry Real Income 1951-55 Class - Series A

How much does it cost?

The following tables show the fees and expenses you could pay to buy, own and sell Series A securities of the pool. The fees and expenses - including any commissions - can vary among series of a pool and among pools. Higher commissions can influence representatives to recommend one investment over another. Ask about other pools and investments that may be suitable for you at a lower cost.

1. Sales charges

You can only buy Series A securities of the pool under the initial sales charge option.

| Sales charge option | What you pay | | How it works |
|----------------------------|-----------------------------------|--------------------------------------|--|
| | in per cent (%) | in dollars (\$) | |
| Initial sales charge (ISC) | 0% to 5.00% of the amount you buy | \$0 to \$50 on every \$1,000 you buy | <ul style="list-style-type: none">You and your representative decide on the rate.The initial sales charge is generally deducted from the amount you buy. It goes to your representative's firm as a commission. Your representative's firm may allow you to pay this commission directly to them. Discuss this option with your representative. |

Sentry Real Income 1951-55 Class - Series A

2. Fund expenses

You don't pay these expenses directly. They affect you because they reduce the series' returns.

As of March 31, 2018, the expenses of Series A of the pool were 2.33% of its value. This equals \$23.30 for every \$1,000 invested.

| | Annual rate (as a % of the fund's value) |
|--|--|
| Management expense ratio (MER) This is the total of the series' management fee (including the trailing commission) and operating expenses. CI Investments Inc. waived or absorbed some of the series' expenses. If it had not done so, the MER would have been higher. | 2.19% |
| Trading expense ratio (TER) These are the fund's trading costs. | 0.14% |
| Fund expenses | 2.33% |

Effective on or before December 31, 2018, CI Investments Inc. will replace the current method by which certain fund operating expenses are charged to the pool with a fixed rate administration fee of 0.20%.

More about the trailing commission

The trailing commission is an ongoing commission. It is paid for as long as you own Series A securities of the pool. It is for the services and/or advice that your representative and their firm provide to you. CI Investments Inc. pays the trailing commission to your representative's firm (including a discount broker). It is paid from the pool's management fee and is based on the value of your investment.

| Sales charge option | Amount of trailing commission | |
|-----------------------------|--|---|
| | in per cent (%) | in dollars (\$) |
| Initial sales charge | 0% to 1.00% of the value of your investment each year. | \$0 to \$10.00 each year on every \$1,000 invested. |

3. Other fees

You may have to pay other fees when you buy, hold, sell or switch securities of the pool.

| Fee | What you pay |
|-------------------------------|---|
| Short-term trading fee | A fee of up to 2.00% of the value of securities you redeem or switch, if we determine that you have engaged in inappropriate short-term trading. This fee goes to the pool. |
| Switch fee | Your representative's firm may charge you up to 2.00% of the value of securities you switch to another mutual fund managed by us. |
| NSF cheque fee | We will charge you \$30 if a payment for a purchase of securities is returned by your bank for any reason. |

What if I change my mind?

Under the securities law in some provinces and territories, you have the right to:

- withdraw from an agreement to buy mutual fund securities within two business days after you receive a simplified prospectus or Fund Facts document, or
- cancel your purchase within 48 hours after you receive confirmation of the purchase.

In some provinces and territories, you will also have the right to cancel a purchase, or in some jurisdictions, claim damages, if the simplified prospectus, annual information form, Fund Facts document or financial statements contain a misrepresentation. You must act within the time limit set by the securities law in your province or territory.

For more information, see the securities law of your province or territory or ask a lawyer.

For more information

Contact CI Investments Inc. or your representative for a copy of the pool's simplified prospectus and other disclosure documents. These documents and the Fund Facts make up the pool's legal documents.
