Securityholders may also contact us using one of these methods to request a copy of the investment fund's proxy voting policies and procedures, proxy voting disclosure record, or quarterly portfolio disclosure.

INVESTMENT OBJECTIVE AND STRATEGIES

The investment objective of Sentry International Equity Income Private Trust (the Fund) is to provide capital growth and income over the long-term by investing primarily in dividend-paying equity securities of issuers outside of North America. The Fund uses a fundamental, bottom-up approach to investing. The Fund may also invest in non-dividend-paying securities and may invest at least 90% of the assets of the Fund outside of North America. For a complete discussion of the Fund's investment objective and strategies, please refer to the Fund's most recently filed simplified prospectus.

RISK

No changes affecting the overall level of risk associated with investing in the Fund were made during the year. The risks of the Fund remain as discussed in the Fund's most recently filed simplified prospectus or its amendments. The Manager reviews the risk rating for the Fund on an annual basis, at a minimum, based on the methodology mandated by the Canadian Securities Administrators to determine the risk level of the Fund. Any change to the risk rating made during the year was as a result of such review and was not a result of any change to the investment objective, strategies or management of the Fund.

RESULTS OF OPERATIONS

The net asset value of the Fund decreased by \$47.5 million to \$132.7 million from March 31, 2018 to March 31, 2019. The Fund had net redemptions of \$43.3 million during the year. The portfolio's performance decreased assets by \$1.3 million. The Fund paid distributions totalling \$2.9 million. Series I units returned 0.2% after fees and expenses for the one-year period ended March 31, 2019. Over the same time period, the Fund's benchmark returned 0.3%. The benchmark is the MSCI EAFE Total Return Index.

Although the global economy performed well throughout 2018, economic growth appeared to be slowing. While equities took their cue from a dovish pivot in monetary policy from the U.S. Federal Reserve and other central banks globally, fixed-income markets focused on a slowing economic backdrop and risks to the global economy.

In Canada, several indicators signalled a slowdown including stock market volatility, an inverted yield curve, weaker retail sales and a decline in real estate investment. In the United States, leading and lagging indicators pointed to a slowdown, which was also reflected in corporate profit growth for large-capitalization businesses. While this level of growth is still healthy, central banks globally took note of the slowing trends.

In Europe, economic strength was uncertain given the impact of the United Kingdom's exit from the European Union (EU). Weaker economic data, trade policy uncertainty, political divisiveness and a strong U.S. dollar contributed to the underperformance of international equity markets. The economic deceleration in select economies outside of the United States, including China, was more pronounced in the latter part of the period.

The Fund outperformed its benchmark over the year largely as a result of stock selection within the health care and financials sectors. Individual contributors to performance included Nemetschek SE, Coloplast A/S and Notre Dame Intermedica Participacoes SA. Nemetschek is a vendor of software for architects, engineers and the construction industry. The company develops and distributes solutions for designing, building and managing buildings and real estate, as well as multimedia. The company missed expectations over the period. Coloplast is a leading supplier of health care products that continued to grow its customer base and maintained mid-single-digit revenue growth. Notre Dame Intermedica is one of Brazil's largest health care operators. The company has exceeded expectations following its initial public offering.

Security selection within the consumer discretionary sector detracted from the Fund's performance, as did an underweight allocation to the real estate sector. Individual detractors from performance included Ambev SA and Pigeon Corp. Brazilian brewing company Ambev faced cost pressures throughout the year, earnings were revised lower and its shares underperformed. Pigeon Corp. manufactures, purchases and sells childcare products. The company lagged as fundamental weakness in China and other markets weighed on expectations.

The Fund's allocation to the health care and materials sectors was increased, and its exposure to consumer discretionary and industrials was trimmed.

The Fund underperformed its benchmark for the year.

RECENT DEVELOPMENTS

The continued economic moderation is expected amid uncertainties around the trade dispute between the United States and China, China's slowing economic growth and unstable European politics. Global earnings growth is also set to moderate in 2019, tracking the more subdued growth outlook.

In Canada, we continue to monitor several factors including consumer debt, job growth and export numbers, as well as key leading and lagging indicators in the United States and their impact on investments.

Abroad, we continue to monitor the United Kingdom's exit from the EU as well as China's fiscal and monetary stimulus and the challenges it faces from high indebtedness, slowing property construction and poor demographics.

Given this backdrop, it is more challenging to find attractive risk-reward opportunities. The manager focuses on finding investments in durable, compounding businesses through a disciplined investment process and on building a resilient portfolio in areas that offer attractive risk adjusted return potential.

New Accounting Standard – IFRS 9

Effective April 1, 2018, the Fund retrospectively without restatement adopted IFRS 9, *Financial Instruments* (IFRS 9). The new standard requires financial assets to be either carried at amortized cost or at fair value with changes in fair value recognized in profit and loss (FVTPL) or in other comprehensive income (FVOCI) based on the Fund's business model for managing financial assets and the contractual cash flow characteristics of the financial assets. Upon transition to IFRS 9, the Fund's financial assets and financial liabilities previously designated as FVTPL or classified as held for trading under IAS 39, *Financial Instruments: Recognition and Measurement* (IAS 39) continue to be classified as FVTPL under IFRS 9. There were no changes in the measurement attributes for any of the Fund's financial assets and financial liabilities upon transition to IFRS 9.

On June 1, 2018, Sentry Investments Inc. amalgamated with CI Investments Inc. (CI) and Sentry Investments Corp. After the amalgamation, members of the Independent Review Committee (IRC) of the CI family of funds also became members of the Sentry Funds' IRC (together, the CI Funds IRC). Previous members of the Sentry Funds' IRC resigned on May 31, 2018.

On September 1, 2018, the Administration Fee proposal that was approved by unitholders during a special meeting held on May 3, 2018 came into effect. Effective September 1, 2018, CI Investments Inc. bears all of the operating expenses of the Fund (other than taxes, borrowing costs and new governmental fees) in return for the Administration Fee. Further details about the Administration Fee can be found in the Fund's most recent simplified prospectus and annual information form or their amendments at www.sedar.com.

Effective September 20, 2018, Tom Eisenhauer became a member of the CI Funds' IRC, and effective October 15, 2018, Mary Robertson resigned as a member of the CI Funds' IRC.

RELATED PARTY TRANSACTIONS

Manager, Portfolio Advisor and Trustee

CI Investments Inc. is the Manager, Portfolio Advisor and Trustee of the Fund. CI Investments Inc. is a subsidiary of CI Financial Corp. The Manager, in consideration for management fees, provides management services required in the day-to-day operations of the Fund. The Manager bears all of the operating expenses of the Fund (other than borrowing and interest costs, investor meeting costs (as permitted by Canadian securities regulation), the fees and expenses of the Independent Review Committee, the fees, costs and expenses associated with compliance with any new governmental and regulatory requirements imposed on or after February 16, 2018 and new governmental fees or with any changes to existing governmental and regulatory requirements imposed on or after February 16, 2018 (including increases to regulatory filing fees), any new types of costs, expenses or fees not incurred prior to February 16, 2018, including those arising from new government or regulatory requirements or related to those external services that were not commonly charged in the Canadian mutual fund industry as of February 16, 2018, and operating expenses that were or are outside the normal course of business of the Fund on or after February 16, 2018) in return for a fixed administration fee.

Management fee and fixed administration fee rates as at March 31, 2019, for each of the Series are shown below:

	Annual management fee rate (%)	Annual fixed administration fee rate (%)
Series I*	paid directly by investor	-
Series Z*	paid directly by investor	-

*Effective on or about September 27, 2018, Series Z were re-designated as Series I.

Portfolio Sub-Advisor

CI Global Investments Inc., an affiliate of CI Investments Inc., provides investment advice to the Fund.

Independent Review Committee

The Fund received standing instructions from the Fund's Independent Review Committee with respect to the following related party transactions:

- a) trades in securities of CI Financial Corp.; and
- b) purchases or sales of securities of an issuer from or to another investment fund managed by the Manager.

The applicable standing instructions require that related party transactions be conducted in accordance with the Manager's policies and procedures and that the Manager advise the IRC of any material breach of a condition of the standing instructions. The standing instructions require, among other things, that investment decisions in respect of related party transactions (a) are free from any influence by an entity related to the Manager and without taking into account any consideration relevant to an entity related to the Manager; (b) represent the business judgment of the Manager uninfluenced by considerations other than the best interests of the Fund; (c) are made in compliance with the Manager's policies and procedures; and (d) achieve a fair and reasonable result for the Fund. Transactions made by the Manager under the standing instructions are subsequently reviewed by the IRC on a quarterly basis to monitor compliance.

The Fund relied on the IRC's standing instructions regarding related party transactions during this reporting year.

Except as otherwise noted above, the Fund was not a party to any related party transactions during the year ended March 31, 2019.

(1) This information is derived from the Fund's audited annual financial statements.

(2) Management expense ratio is calculated based on expenses charged to the Fund (excluding commissions and other portfolio transaction costs) and is expressed as an annualized percentage of daily average net assets for the year, including the Fund's proportionate share of any underlying fund(s) expenses, if applicable. The Effective HST tax rate is calculated using the attribution percentage for each province based on unitholder residency and can be different from 13%.

(3) The trading expense ratio represents total commissions and other portfolio transaction costs expressed as an annualized percentage of daily average net assets during the year, including the Fund's proportionate share of such expenses of any underlying fund(s), if applicable.

(4) The Fund's portfolio turnover rate indicates how actively the Fund's portfolio advisor manages its portfolio investments. A portfolio turnover rate of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the fiscal year. The higher a Fund's portfolio turnover rate in a year, the greater the trading costs payable by the Fund in the year, and the greater the chance of an investor receiving taxable capital gains in the year. There is not necessarily a relationship between a higher turnover rate and the performance of a Fund. Portfolio turnover rate is calculated by dividing the lesser of the cost of purchases and the proceeds of sales of portfolio securities for the year, and excluding cash and short-term investments maturing in less than one year, and before assets acquired from a merger, if applicable, by the average of the monthly fair value of investments during the year.

(5) This information is provided for the years ended March 31.

PAST PERFORMANCE

This section describes how the Fund has performed in the past. Remember, past returns do not indicate how the Fund will perform in the future. The information shown assumes that distributions made by the Fund in the years shown were reinvested in additional units of the Fund. In addition, the information does not take into account sales, redemption, distribution or other optional charges that would have reduced returns or performance.

Year-by-Year Returns

The following chart shows the Fund's annual performance for each of the years shown and illustrates how the Fund's performance has changed from year to year. In percentage terms, the chart shows how much an investment made on the first day of each financial year would have grown or decreased by the last day of each financial year, except where noted.

1 2017 return is for the period from November 14, 2016 to March 31, 2017.
